Germany Quits

Accepts Allied Terms of Unconditional Surrender.

News of Germany's unconditional surrender, received this (Monday) morning did not come wholly as a surprise, as the events of the last few days have indicated that nothing else could save the German armies from destruction. In addition, the internal situation in Germany practically insured the acceptance of the drastic armistice conditions, as a revolution is in progress.

Despite the raging epidemic of influenza Coleman celebrated as royally as the circumstances would admit, and the blowing whistles and ringing bells carried the good news to all parts of town in short order.

The armistice was signed at five o'clock this morning and fighting ceased at eleven o'clock.

The nightmare of the last four years is over.

Over the Top With Victory Bonds

Coleman has furnished loyal support to the Victory Loan \$166,000 having been subscribed to date and this amount will be considerably augmented by Saturday night.

A flag and three crowns have already been won by the Coleman canvassers.

In Grip of 'Flu.

Coleman is receiving a full share of attention from the epidemic of influenza and although fairly well in hand, a considerable portion of the town is under quarantine.

But few deaths have occurred and it is hoped the epidemic has passed the peak.

OBITUARY

Mr. Thomas Haines passed away on Wednesday Oct. 30th. Mr. Haines was an old timer and highly respected by all.

The funeral took place on Saturday 2nd. A short service was conducted in the house by the Rev. D. K. Allan. Owing to the Provincial regulations no public ceremony could be held.

The sympathy of his many friends goes out to Mrs. Haines in her bereavement.

COLEMAN RED CROSS.

Following are the collections for the month of October:

Membership fee	\$10.00
Life Membership	\$25.00
McGillivray Local Union	\$75.50
McGillivray Non-Union	\$14.75
Coleman Local Union	\$78.50
International Non-Union	\$ 7.50
Town Collections	\$47.50
MRS. C. F. DUNLOP,	
Sec.-Treas. Coleman Red Cross.	

Mr. Hall, of Calgary, has taken the position of surveyor at the McGillivray mine, succeeding F. Mercer. He will move his family here in the near future.

In the midst of the "Flu" epidemic the best antidote is the news from the west front and from Victory Loan headquarters. It's pretty hard to be ill in the face of such a combination.—Lethbridge Herald.

The Dominion Government has entered into contracts for the construction of six additional steamships.

The Sunday School papers will be distributed at the Institutional Church on Sunday between 2 and three o'clock.

The Bulletin staff has been out of commission during the past week, a fact readers will easily discover by the paper issued.

A. E. Chard, manager of the Union Bank at Bruderheim, Alta., died after being inoculated with anti-influenza serum. His home was in Stirling, Ont.

Epidemic of Influenza

Instructions Regarding the Care of Sick Persons.

Since Thousands of People are Nursing Influenza Patients in the Province the Following Instructions Will Be of Value:

1. Fresh air is the most essential requisite to the comfort and well being of patients, no matter how ill.
2. Rest in bed for three days after fever has gone is urged to prevent complications.
3. Pneumonia cases should not be kept in the same room with uncomplicated influenza cases.
4. Nourishing food at regular intervals.
5. Plenty of water or lemonade.
6. General unprovoked service, avoid chattering, nagging or questioning anticipate wants of sickest patients, convalescents usually ask for what they want.

Keep the patients in isolated room in separate beds. Keep patient in bed all of the time. (This means patient must not get up to go to the bathroom). Two or three pillows arranged step fashion the lowest well under the shoulders will make breathing easier. Keep the arms and shoulders well covered. Ventilate the room freely. At the outset, headaches and backaches are frequent. Cloths (moist but not dripping) to the head, changed frequently give some relief. Avoid anything that might cause the slightest chill. Care of mouth; a mouth wash every few hours and cold cream to the lips help to keep the mouth in a normal condition; if patient is extremely weak, swab the teeth carefully with moistened cotton applications three times daily.

PRECAUTIONS

Precautions—All mouth washes bath water, extra, and unclean liquid food should be thrown into the toilet by the attendant.

All bags, napkins, scraps of unclean food, mouth swabs, etc., should be wrapped in clean newspaper before being carried to the kitchen to be destroyed by burning.

All linen, sheets, masks, towels, etc., should be submerged in a large kettle of cold water in the sick room, or put in a pillowcase or laundry bag. This can be safely carried to the kitchen stove and when contents have been boiled five minutes anyone may finish caring for the linen. When attendant cannot go to wash her own hands, door knobs, faucets, etc., should be protected by scraps of newspaper which may be destroyed after each usage. Attendants must be constantly masked, must wear big all-over aprons in sick room, changing it to a different one before entering any other part of the house. Attendant must keep facilities for washing her own hands, soap, nail brush and paper towels in clean place and never touch the patient or patients utensils without afterward cleansing her own hands thoroughly. Running water is better and safer than a basin of weak disinfectant kept for the hands alone. Everything used for the patient should be kept separately from the supplies for the rest of the household. This means dishes, bed linen, bath wrappers, towels, face cloths, rocking chair, etc.

Families can help visiting nurses and aids by having hot water towels, and newspaper ready when nurses are expected.

Doesn't Pay This Time

War Is Worst Kind of Bad Business For the Kaiser

One of the sayings of the Kaiser that found much favor with his devoted people was this: "Manufacturing pays 5 per cent; international trade, 15 per cent, but war pays 1,000 per cent."

He was speaking of previous wars when he said that, and holding out hopes concerning this one.

In former wars against Austria, Denmark, and France, the Prussian militarists got results which enabled them to talk to business men about war as the biggest of all business enterprises. There were provinces and seaports, rivers, canals, mines and ore deposits to be annexed; there were rich territories to be looted and great war indemnities to be levied. The whole thing was so simple that even the stupidest German could understand it. War paid against the Danes, Austrians, and French, and it was not necessary to be ready, strong and ruthless, and on a much larger scale it could be made to pay enormously. So at it they went.

It isn't going to pay this time. That is one thing that the world means to make sure of—that this war does not pay Prussia and Germany, that it has not been good business, but had disastrous business, and a class of undertaking never again to be thought of as a means of profit and advantage. The Prussian big business method has got to be discredited in Prussia.

It is not enough, therefore, for the Huns to get out of France and vacate and restore Belgium. They cannot be allowed to "make war pay" at the expense of Russia. They have got to come out of this war knowing that war doesn't pay, but is the worst kind of bad business ever attempted. This is the message in this matter. They have got to be shown that war is a thing that of which they emerge very bad losers. Then they will settle down to a new way of thinking.

Russia's Industrial Losses

A Reuter's message from Petrograd says the commissariat of commerce has issued a summary of what Russia has lost by the peace treaty of Brest-Litovsk. The losses specified are: Seventy-three per cent. of the total iron production; 39 per cent. of the total coal production; 268 sugar refineries; 918 cloth factories; 574 breweries; 173 tobacco factories; 1,085 spirit distilleries; 244 chemical factories; 615 paper factories; 1,073 machine factories; 21,530 kilometers of railways (one-third of the total railway of Russia); 56 million, or 32 per cent. of the whole population, and 780,000 square kilometers of territory.

Mother Goose

Was a Real Person and Lived in Boston

Perhaps the most famous woman that ever lived was Mother Goose. Other women, particularly a few bad ones, have enjoyed celebrity, but she achieved immortality.

She is called Mother Goose because that was her name. For she was a real person, and dwelt in the city of Boston. She lived in a little storybook house with a roof that sloped almost down to the ground—just such a house as one might expect Mother Goose to occupy—not far from the Common.

The house vanished long ago, but the church in which she was accustomed to regularly attend still stands. It is the famous Old South Church.

Her maiden name was Elizabeth Foster. In fact, she was an old maid, twenty-eight years of age—quite elderly for an unmarried woman in those days—when, in 1663, she met and became the wife of Isaac Goose.

She had children and grandchildren, and it was the latter that she wrote her rhymes, which were first published by Thomas Fleet, her son-in-law, in Boston, in 1716.

Mother Goose died in 1757, aged ninety-two.

Always Serviceable.—Most pills lose their properties with age. Not so with Parmelee's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness are preserved, and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelee's. They will maintain their freshness and potency for a long time.

Cardinal Mercier's Lament

Aged Prelate Is One of the Heroes of War

Neither ecclesiastical nor lay cannibals, neither civil nor military twaddle, can dim the eye or influence the judgment of Cardinal Mercier of Belgium. He has lived throughout the horror of it all, and what he has seen he is not afraid to tell. Because of his loyalty to truth and the cause of old Belgium, he has been ever stand forth as one of the heroes of the war. This is what he says of the work of the Germans in his country:

"We can neither number our dead nor compute the measure of our suffering. The horrors of this living case are now in bitter war. All commerce is at an end. All careers ruined. Industry is at a standstill. Thousands upon thousands of workmen without employment. Working women, shop girls, seized and deported. The poor are perishing of earning their bread, and poor souls forlorn in beds of sickness and fever crying, 'Oh Lord, how long, how long!'"

Value in Fish Waste.—In Liverpool, England, a plant has been installed for the utilization of fish waste, and the fats obtained therefrom find a ready sale at about \$400 a ton. The waste is removed, residue and used for feeding live stock and poultry, results at over \$100 a ton.

CORN LIFTED UP WITH YOUR FINGERS!

You get real action on a bad corn when you touch it with a drop of corn oil. The corn is destroyed, comes the corn, all shriveled up, peels right off the toe, roots and all. It is a real happiness to get an old offender removed so quickly. Putnam's never fails, doesn't hurt when you're using it, never hurts afterwards. No corns, no blisters, no pain or soreness. Costs but a quarter in any drug store. Get Putnam's today.

Food in Italy and France

Meats are Scarce and Prices Extremely High
As bread and wheat products formed 52 per cent. of the French diet before the war, it has been hard to substitute other foods there. That is partly due to the fact that wheat is not a customary food and has not been for generations. Moreover the strain of years of war has made the people less adaptable to substitutes, even when they are comparatively easy to obtain. Until recently there were three meatless days a week, but conditions have been improved there through conservation on this side of the Atlantic, so that the restrictions have been removed.

In Italy the ministry of food has requisitioned the 1918 crops of wheat, barley and corn. The grain shortage has worked great hardship to Italy, because of the large part that bread and macaroni formerly played in the diet. Macaroni is made with 45 per cent rice, and the entire cereal consumption of the nation has been reduced by one-fourth.

Large stores of grain were taken from Italy during the German advance in the fall of 1918. January was a time when only one week's supply of food was on hand. But imports of grain have increased. Refugees from the invaded districts have caused a severe drain on the food supplies of the rest of the country. Meats are scarce and prices extreme. In May the food ministry was authorized to regulate meat for the civilian population as well as the army. Prices of requisitioned foods are generally less than of the others.

In sugar and butter supplies Italy is the poorest of the allies. There is no uniform sugar ration, but in the cities people can obtain only from two to four ounces a week.

Teach Children to Use Cuticura Soap

Because it is best for their tender skins. Help them now and then with touches of Cuticura Ointment applied to first signs of redness, roughness, pimples or dandruff. If mothers would only use these super-creamy emollients for everyday toilet purposes how much suffering might be avoided by preventing little skin and scalp troubles becoming serious.

Sample Each Free by Mail. Address given by Cuticura Dept., N. Boston, U.S.A. Part of the profits go to the World's War.

Keeping Biennial

Vegetables for Seed Must Be Stored First Winter and Replanted in Spring

By the term "biennial" vegetables is meant one that takes two seasons to produce seed, writes the Dominion horticulturist in a leaflet giving advice on seed selection and sowing. The biennial vegetables for seed, which can be had free from the Publications Branch, Department of Agriculture, Ottawa. The vegetables must be stored over the first winter and replanted for seed production the following spring. Some of the vegetables of this class are beets, cabbage, carrots, celery, parsnips, salsify and turnips. Seed of the winter vegetables must be stored in a cool, dry place. The seed of the summer vegetables must be stored in a cool, dry place. The seed of the winter vegetables must be stored in a cool, dry place. The seed of the summer vegetables must be stored in a cool, dry place.

The methods of wintering vegetables for seed will vary in different parts of the country, but in most places it will be necessary to give them some protection. When possible, it is best to store them in a frost-proof cellar. But, if necessary, the vegetables may be stored outside, both in small and in large quantities, except in the case of carrots, which must be kept dry, and stored in a cool place where there is little or no frost.

Minard's Liniment Cures Garget in Cows.

Will Use Canadian Platinum
On account of the cutting off of the supply of platinum from the usual sources, Great Britain and her allies are now forced to look to Canada for their supply of this metal. In order to stimulate production, the Canadian department of mines has arranged for the purchase of platinum at the Dominion government assay office in Ottawa. This will be an advantage to Canadian platinum producers who will be able to dispose of their products in the United States.

Are We Coming to This?
"I've given up smoking, and now my case comes in handy for carrying my lunch." The Passing Show.

WHILE AT WAR

Woman Suffer at Home

Toronto, Ont.—"I consider Doctor Pierce's Favorite Prescription the very best of all women's tonics. I suffered a severe nervous breakdown. I could not sleep, was weak and tired all the time. I took the 'Prescription' and just a few bottles completely built me up and relieved me of my nervous condition. It is a good medicine and I am glad to recommend it."—Mrs. ALFRED BEECHER, 2550 Seaton St., Niagara Falls, Ont.—"I can safely say that 'Pierce's Favorite Prescription' is a lot of good. I at one time developed woman's trouble; my nerves were completely shattered, and I became weak and nervous. I had severe headaches and pains in my side, extending down into my limbs. I doctored, but did not get relief of my ailments and was down and out when I began taking Dr. Pierce's Favorite Prescription, and it so completely cured me and restored me to health and strength that I was able to do all my own work and other duties. I do recommend 'Pierce's Favorite Prescription' to all women; they cannot get a better medicine."—Mrs. JOHN LOCKMAN, 36 Terrace Ave., Toronto.

Parve's Prescription is an invigorating, restorative tonic, a soothing and strengthening nerve and a positive remedy for the chronic weakness peculiar to women.

This old prescription of Dr. Pierce's is extracted from roots and herbs by means of pure glycerine and is a temporary remedy of 50 years' good standing. Send the for trial pack of tablets to Dr. W. M. Pierce, 1111 Market Street, Buffalo, N. Y., or Bridgeport, Conn.

The Road to Berlin

It Is a Straight Line Through the Air

From the western front the shortest route to Berlin lies through Belgium, crosses the Rhine at Cologne, Hanover and Berlin. The war and tear of war doubtless has deteriorated the roadbed and the road to Berlin will be a long, hard road to travel.

There is another and shorter road to the capital of the German empire. It lies in a straight line through the air.

A man of a suburban train was discussing the war with a friend, he said, raising his voice, "that a thousand American bombing planes were going to drop bombs on Berlin, at two o'clock tomorrow afternoon. The whole car stirred. A thrill passed through every one at the very thought. The road to Berlin lies through the air."

Any afternoon at two o'clock that a thousand American bombing planes were going to drop bombs on Berlin, at two o'clock tomorrow afternoon. The whole car stirred. A thrill passed through every one at the very thought. The road to Berlin lies through the air."

CURING SKIN TROUBLES

So many people, both men and women, suffer from skin troubles, such as eczema, blotches, pimples and itching, that a word of advice is necessary. It is a great mistake for such sufferers and those with bad complexions to smear themselves with greasy ointments. Often they could not do anything worse, for the grease clogs the pores of the troubled skin and their condition actually becomes worse.

When there are pimples or eruptions, or an irritating or itching rash, a soothing boracic solution may help to allay the irritation, but of course that does not cure the trouble. Skin complaints come from an impure condition of the blood and will persist until the blood is thoroughly purified. It is well known that Dr. Williams' Pink Pills have effected the most successful results in many forms of skin disorders and blemishes. This is due to a soothing boracic solution may help to allay the irritation, but of course that does not cure the trouble. Editorial Comment

After an extended trip through portions of Alberta, Saskatchewan and Manitoba, the best advice we have to pass on to anyone who contemplates a similar journey is

to take a lunch along and not to eat it all until the end of the trip is in sight.

The writer gathered an appreciation of the United States government's action in

limiting the amount to be charged for a meal on a dining car. If conservation of food was carried out all over Canada to the extent it was on the dining cars attached to the trains we connected with, food would be a drug on the market in a month and there would be no further strife between capital and labor—there would be no capital left worth while outside dining car operators.

Spanish influenza was the main topic of discussion everywhere, and for thoroughness in the way of scare the "Flu" is entitled to the blue ribbon. It is highly probable the fatal results were accelerated by the wild rumors in circulation, which could not fail to affect anyone who contracted it.

"Dying like flies," "worse than black diphtheria," "Doctors all afraid of it," and similar comments, would not create a reassuring atmosphere for a prospective "Flu" patient. The actual fatalities have failed entirely to justify the partial

panier the stories of the epidemic has created.

Western Canada scored at the International Soil-Products Exposition at Kansas City capturing a total of one hundred and four prizes. These include first, second, third and sweepstakes in wheat; first, second, third and sweepstakes in oats; first, second, third and sweepstakes in barley; first and second in flax. Senger Wheeler of Rosthern, Saskatchewan, won first, sweepstakes and the \$500 silver cup offered by the Canadian Pacific Railway Department of Colonization and Development for the best half bushel of hard spring wheat. H. B. Sheely of High River, Alberta, was second in this competition. Nick Taitinger of Claresholm, Alberta, won first and sweepstakes for barley; Province of Manitoba first for state vegetable collection; Kildonan first for county vegetable collection.

THE REASON

It seemed that when Rastus and Sam died they took different routes; so when the latter got to heaven he called Rastus on the phone.

"Rastus," he said, "show y' like it down there?"

"Oh, boy! Dis here am some place replied Rastus. 'All we has ter do is to wear a red suit wid horns, an ebery now an den shovel some coal on de fire. We don't work no more dan two hours out ob de twenty-four den here. But tell me, Sam, how is it with you up yonder?"

"Mah goodness! We has to get up at four o'clock in de mawnin' an gathah in de stahs; den we has ter haul in de moon and hang out de sun. Den we has ter roll de clouds aroun' all day."

"But, Sam, how come it y' has ter work so hard?"

"Well, to tell the truth, Rastus, we's kin' o' short on help here."

STEAM COAL

KOAL

Remember this: We produce the Coal you want for small houses and large houses, for little steam plants and big steam plants. Give it a trial and see.

NAME OF MACHINE PLEASE

Dear As You Like It: If two Chinese Laundrymen and Charlie Chaplin went out together for a motor drive and the machine was smashed in a wreck, what would be left?

Ans.—Two washers and one nut.

International Coal & Coke Co. LIMITED

We Print You Prosper

Every business man advertises in a number of ways. He decorates his store and the store windows to make them attractive; he endeavors to stock goods to suit the tastes of the customers he expects to serve, and in many other ways endeavors to attract custom. The Bulletin offers the cheapest and most effective means of reaching the public. Is your name written there?

The Job Printing Department

Will be found fully equipped to turn out anything from a visiting card to a full sheet poster. Our presses are up-to-date, our type faces modern and our workmen are experienced printers. We supply any stock on the market. Our prices are fair.

Sir Thomas White on Victory Loan

Interesting Explanatory Address Delivered by Finance Minister at Calgary Before Alberta Editors and Loan Workers

Sir Thomas White, financial minister of Canada, was the chief speaker in a day of inspiration for the Victory Loan workers of southern Alberta who were assembled in convention at Calgary on Friday, October 18. The meeting, which was presided over by Wm. Toole, chairman of the Southern Alberta executive, was addressed by newspaper editors and workers in the Victory Loan campaign from all points in southern Alberta.

At 12:30 the visitors were entertained to luncheon and a musical programme in the Fairview Hotel, and at 2 o'clock Mr. Toole called the business meeting to order, when it was most interestingly addressed by Mr. J. H. Woods, editor of the Calgary Herald, until the arrival of Sir Thomas White at 2:30.

In opening his address, the minister, in view of the fact that he was addressing so many members of the fourth estate present, referred to his early days spent on the press in Toronto. "It is a special pleasure, therefore, for me to meet the gentlemen of the press here," he said; "and I desire on this occasion to make a public acknowledgment to them for the splendid support and assistance I have received ever since I became finance minister. I would be lacking in courtesy and gratitude if I did not express my appreciation to J. H. Woods, of the Calgary Herald, who last year was president of the Canadian Press Association and who did splendid and magnificent work as chairman of the press publicity committee of the Victory Loan."

"It would be impossible for a minister of finance to carry on the finance of the Dominion of Canada in time of war, and in a war as this," said Sir Thomas, "unless he had the loyal and practically undivided support of the entire community, and unless he were able to place on the business shoulders of our citizens the greater part of the work and responsibility connected with a Victory Loan."

Relates Difficulties
Sir Thomas reviewed at some length the difficulties that had arisen in connection with the finances of the country. It was, he said, in July last year that, owing to the entry of the United States into the war and the closing of the New York market, that Great Britain found herself unable to continue her purchases in Canada of Canadian products by reason of lack of funds, and he referred to the urgent messages he had received from Premier Lloyd George and Bonar Law—most urgent messages—asking that credit should be furnished for purchasing products required by Great Britain in Canada. Canada had been asked to furnish last year \$152,000,000.

"That," said the minister, "necessitated an entire re-arrangement of our plan of finances," and he spoke of the co-operative effort that had been made in connection with the Victory Loan of 1917, paying a great tribute to the \$150,000,000 from 1,000,000 subscribers, "and their success had been unprecedented in securing \$417,000,000 from 1,000,000 subscribers."

fit by the experience gained last year." A tribute was paid by Sir Thomas to the extraordinary co-operation and enthusiasm of the organizers engaged in the work this year. The minister's reference to the wonderful efforts of any august mortal overseas and her achievements, was frequently punctuated with resounding applause, and when last year he crossed from Folkestone to Boulogne, "if Germany had got Calais in 1918," he said, "the whole course of the war might have been changed. Theoretically they did but the Canadians are not theoretical soldiers," he added, "and their left wing was 'up in the air' they went into battle and saved the Canadian Corps at the front is probably the most formidable of any unit lacking part in this war."

Eternal Credit
"It is to the eternal credit of Canada that the Canadian forces have taken the part they have in this war," continued the minister. "We can hold our heads up high by reason of the fact that we have suffered from the beginning they have fought victoriously. They were the first to enter Cambrai, and according to present conditions they were the first to break the Hindenburg line—so badly broken now that old Hindenburg is not able to recognize it as his own (laughter)—and so right down to the full retreat of the enemy."

Sir Thomas here read a message he had received from Sir Arthur Currie, commander-in-chief of the Victory Loan which aroused much enthusiasm. This expressed the faith of the men at the front in the people at home and in the success of the forthcoming campaign. The minister also read his reply to Gen. Currie, in which he said the inspiring message would appeal to the people of this country, and expressing his hearty congratulations to the success of the Canadian forces under his leadership, ending "May God bless and keep you all."

Concluding, Sir Thomas referred to the tremendous undertaking in carrying on the war in Europe. Of the 600,000 men and Canada's quota, 400,000 had gone overseas, and that had been from a country as large as the United States but with a population of eight millions, and a people of mixed nationality. "That was a tremendous effort for Canada to put forward," he said, "and it is not overlooking the fact that these soldiers were not fighting on their country's frontier, but thousands of miles away. Up to date Canada has spent \$1,900,000,000 on the war," he said, "and the present expenditure is over \$1,000,000 a day."

Benefits of 1917 Loan
Sir Thomas here turned to the prosperity of Canada. In view of the sacrifices made by those who have gone forth, one does not like to speak of material prosperity," he said, "but I do not make any apology in doing so, for it is manifest to all that the better condition we are in financially the more capable we will be of carrying out the war. And much of the prosperity has been directly caused by the Victory Loan," he said, "and the minister, I have no hesitation in saying that it had not been for the Victory Loan and its success, conditions in Canada today would be very different from what they are. If we had been unable to raise the money we did there would have been a very considerable depression in all parts of Canada, whether agricultural or otherwise."

In reviewing how the country had benefited by the loan, the minister pointed to the shipbuilding of British Columbia at the present time. Every dollar paid by the Imperial Munitions Board for ships has been furnished by the Dominion government. Every ship built by the Munitions Board had come from the Victory Loan. There were, he said, in the shipbuilding of British Columbia had the finest spruce for the world in the world in ten million dollars had been expended in that direction. In the prairie provinces there was a wheat crop, and arrangements had been made whereby the grain could be shipped at prices fixed by the wheat commission. The same also ap-

plied to the cheese of Ontario and to commodities of many basic industries. So that all over the country was to be found the beneficial effect of the last Victory Loan, he said. There was therefore a personal interest on the part of every one in Canada to make the present Victory Loan a success. Although the crops in the three prairie provinces had not come up to their high expectations, at the same time it had been made in increased production, he felt assured that they would not only reach their quota, but would exceed their fine contribution of last year.

Time is Opportunity
The minister of finance then turned his attention to the situation in Europe. The situation in regard to the loan was excellent, and this could not be more favorable than at the present time. "It is difficult for us to visualize by any stretch of our imagination," he said, "the momentous character of the situation last spring and the wonderful change that has been brought about in the last few months. There was a time in March and April of this year when the destiny of the empire and of the world hung in the balance. Russia had collapsed, and the Germans were able to withdraw their legions to the west. Their plan was one of the utmost daring in the history of the war. They intended to drive the British into the channel and roll up the French towards Paris. They knew that the Americans were arriving in larger numbers and they had to stake everything upon this die. And they nearly succeeded. Why they did not succeed, or rather renew their attack, we do not know. Then came the great pressure under General Foch. Since then the whole Allied line has gradually gone forward and the German army is now in full retreat. All that transformation has been brought about in a few months, the enemy being driven out of France and Belgium into his own lair."

"See Foch"
"Then the German peace overtures started," said the speaker. "Germany said they would be glad to evacuate Belgium and France. Of course they would be glad to evacuate," said Sir Thomas. "The soldiers now know how William had been dealing with the Hohenzollerns; if you want an armistice see Foch. I do not believe a durable peace can be established until Prussian militarism is discredited in the eyes of the German people and until the Hohenzollern dynasty is overthrown," said Sir Thomas. "The mark which was applauded to the echo. 'No responsible man would ever advance a peace of any moment longer than was absolutely necessary,' he said, 'but having regard to all the blood and treasure and heartbreakings of this terrible struggle—the most terrible mankind has ever known—it will not be to stop now until the full fruits of victory are consummated. I do not believe that any lasting peace is possible in this world until the democratic freedom of governing that we have in Great Britain, in Canada, in the United States and France is general among the great nations of the world.'"

And what has Great Britain done? asked Sir Thomas. She has poured out her blood and treasure without stint. She has a national debt of twenty-six billions today. She advanced seven billions to her allies and spent her money like water to support her allies in Ottawa," said Sir Thomas. "had handled some \$1,900,000,000 in gold for Great Britain."

No Doubt of Issue
"The day may be long," concluded Sir Thomas, "but there will be a final end, and that in victory. We are beginning to see the goal of our efforts and sacrifices. One thing we know for certain, and that is, that the issue is in our hands. With this great fact in mind," concluded Sir Thomas, "let us put forth our greatest efforts to make the Victory Loan of 1918 a victory loan indeed."

After Sir Thomas had completed his speech, short addresses were delivered by Robert C. Stead, chairman of the Southern Alberta public committee, and G. H. Marnech, vice-chairman of the Southern Alberta executive. The meeting then resolved itself into committees for the purpose of discussing ways and means to insure the success of Canada's Victory Loan.

NOTICE

Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

"106. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for reporting or for military service, imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not more than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the

obligations or requirements aforesaid."

"106A. Every person who HARBOURS OR CONCEALS OR IN ANY WAY ASSISTS ANY MAN WHO IS A DESERTER OR ABSENT WITHOUT LEAVE FROM THE CANADIAN EXPEDITIONARY FORCE, or who is in default in the performance of any obligation or requirement for reporting or for military service imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable upon summary conviction by imprisonment not exceeding six months, or by a penalty of not more than One Hundred Dollars and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he was not aware and had no reasonable ground to suspect that the man so harboured, concealed, or assisted was a deserter or absent from the force without leave or in default in respect of any of the obligations or requirements aforesaid."

T. W. Davies made two trips to Cranbrook this week to assist the undertaker; there, who was ill.

Geo. Moretti and family left for Calgary on Tuesday, where he has secured a position as provincial manager for the Dictaphone company.

NEW CANADIAN NOVEL—The Cow Puncher.

An English reviewer recently in reviewing the poems of Robert J. C. Stead, said that while Canada's troops had done nobly in the war such writers as Stead were doing a no less valuable service in building up a genuine national literature. The reader who is wise enough to obtain a copy of "The Cow Puncher," Mr. Stead's latest novel, will agree with the English reviewer. It is a genuine contribution to the national wealth of Canada, made by a writer whose intimate knowledge of the West peculiarly qualifies him for such a service.

Since Robert Stead wrote his famous poem on the death of Kitchener all who profess to be informed on current literature have been more or less conversant with his work. His collection, "Kitchener and Other Poems," published last fall, was a best seller, and is still in considerable demand. The English edition is reported to have been a big success in Great Britain. His previous novel, "The Homesteaders," has been so continuously sold out on the Canadian market that a new edition has just been issued in Canada.

"The Cow Puncher" promises to add to reputation already well established. It is not merely a novel; it is an event in the literary life of the country. Dr. W. T. Allison, professor of English, and well known litterateur, declares that it is the biggest thing in a literary way that ever came out of the prairie country. It is very pleasant reading, and there is a unique vein of humor and there is philosophy which has caused it to be called the David Harum of Canada. But "The Cow Puncher" is by no means literary pastime. Its note is in keeping with the serious business of the times, and in its closing chapters it rises to a patriotic level not excellent by any present writer.

It is not our purpose here to outline the plot of "The Cow Puncher," you will enjoy it more to read it in the author's own words. The book is published in Canada by the Musson Book Company, of Toronto, and in the United States by Harper & Brothers. It is attractively illustrated by Arthur Heining, one of Canada's most successful artists.

Buy Victory Bonds

IS THE GREAT MESSAGE OF THE WEEK.

Never before was a campaign more extensively or thoroughly organized in all Canada. Never was there launched a campaign more worthy of your support.

BUY YOUR SHARE IN VICTORY BONDS—the only place of safety.

It is the patriotic duty of everyone to BUY VICTORY BONDS. Victory Bonds are negotiable at market value.

Victory Bonds are a fine investment.

Great Britain must now purchase where she can get the credit. If Canada grants the credit, Canada will get the business.

ABSOLUTE OBEDIENCE

When Elsie came home from a neighbor's house munching a chocolate, her mother said reprovingly:

"Now, Elsie, how many times have I told you not to ask Mrs. Grey for chocolate?"

"I did exactly what you told me to do, mother. I didn't ask her," replied Elsie. "I know where she keeps them."
